*Break Through To Yes presents step-by-step strategies for
success through collaboration.*

On March 22, 2016, Canadian business leader and consultant, David B. Savage, will release his first book, ***Break Through to Yes: Unlocking the Possible within a Culture of Collaboration.***

With 40 years of leadership, coaching, consulting and organization-building experience under his belt, David Savage has made connections all over the world in nearly every industry. When he decided to write a book about collaboration, he knew that the best way to demonstrate legitimacy was to bring in the experience and insight of this diverse group of leaders. The first fruits of the concepts in ***Break Through to Yes*** would be the book itself – a comprehensive and highly applicable guide to reaching the next level of success through effective collaboration.

...

Savage was among the avant garde to realize that the traditional hierarchy of business leadership, so heavily entrenched in corporate cultures across the globe, was becoming more and more unsustainable. He studied the complex challenges that the nations, communities, organizations and families of the world are facing and the daunting potential risks that these challenges present, and realized that a top-down approach to solution creation would no longer be adequate.

Powerful Quotes from David B. Savage's *Break Through to Yes*

*Leadership is yours (not others).
Collaboration is your powerful magnet.
You are important. We are the answer.
Collaboration is the way we create our
shared future. Collaboration is also the way
we support one another in crisis.*

*Through interviews, teaching, and
consulting, they uncovered what
distinguishes the most effective leaders.
Simply put, the answer lies in how leaders
lead themselves and take accountability
for their personal and professional growth
in today's challenging environment. At
the heart of Centered Leadership lies the
practice of self-awareness and choice.*

*As leaders, let's work with all the diversity
of opinions and perspectives we can. Let's
create outcomes never believed possible.
And let's move from "Mediot" championed
division to an inclusive vision. A wonderful
outcome is that business may then do better
business and create better bottom lines.*
